

Sami Halawa

Founding AI Engineer & Systems Architect · Agentic AI, RAG, MCP & Production LLM Platforms

Madrid, Spain · EU work authorisation · +34 679 794 037 · sami@oulang.ai · samihalawa.com · linkedin.com/in/samihalawa · github.com/samihalawa

OPEN TO WORK · AVAILABLE IMMEDIATELY · FULL-TIME, CONTRACT, HYBRID OR REMOTE

Founding AI engineer and systems architect building production agentic AI — multi-agent workflows, RAG and MCP systems that run real businesses across web, iOS and Android. I ship with explicit state, tool-calling schemas, structured outputs, evaluation checkpoints, observability and human review, and take systems from architecture through measurable validation and operational handover.

CORE TECHNICAL EXPERTISE

Agents & RAG LangChain, LangGraph, MCP, multi-agent workflows, memory, retrieval and structured outputs	Models & evaluation OpenAI, Anthropic, Gemini, open models, prompt design, tool schemas and evaluation loops
Testing & data quality Evaluation harnesses, golden-query sets, SQL validation, telemetry, error slicing and human review	Production delivery Python, FastAPI, TypeScript, SQL, Docker, CI/CD, logs and human-review checkpoints

PRODUCTION ARCHITECTURE

context + retrieval → explicit agent state → tool / function calls → structured outputs → evaluation checkpoints → observability → human review → operational action
--

ENGINEERING STACK

Languages & APIs: Python, TypeScript, SQL, FastAPI, Node.js, REST, webhooks · Agent systems: LangGraph, LangChain, MCP, RAG, OpenAI, Anthropic, Gemini · Product: React, Next.js, Ionic, Capacitor, Expo, SwiftUI · Delivery: Docker, Linux, CI/CD, Coolify, Cloudflare, PostHog and cloud platforms.

AI systems, engineering and communication

Four canonical employment blocks. Products and client engagements are nested under the role in which the work was delivered, preserving a clear and credible chronology.

EXPERIENCE

AI PLATFORM LEADERSHIP & APPLIED SYSTEMS

Founding AI Engineer & Systems Architect · Agents AI Ltd

Jul 2025–Jun 2026 · Madrid, Spain · Hybrid

- Built and operated OULANG across web, iOS and Android, reaching 17,262 users, 38,857 listings and 89,913 contact reveals by 3 July 2026.
- Owned the ML/data/serving loop: multilingual retrieval, embeddings, model routing, Python/FastAPI services, evaluation, observability and infrastructure operations; migrated core workloads to Hetzner, Coolify and Docker for a major cost reduction.
- Delivered production agentic systems with durable state, MCP tool calling, schema-validated outputs, evaluation checkpoints and human review across marketplace, revenue-operations, legal-tech and governance workflows.
- Led the signed €35,000 IWAKY/AutoPricing scope for multi-marketplace pricing intelligence, WhatsApp quote analysis and ERP-oriented dashboards from Oct 2025.
- Led Umbramed technical delivery (Jul 2025–Jun 2026), including Ionic/Capacitor/PWA architecture and PDF-to-structured-data workflows; built INTLAW, RapidAct/PIME and cross-platform app-store delivery within the Agents AI portfolio.
- Advanced AutoClient after its core build through selection for the Lanzadera Sep 2025 cohort; published open-source MCP infrastructure including VUDA.

AI Systems Architect & Independent Technical Advisor

Jul 2022–Jul 2025 · Madrid, Spain · Remote / Freelance

- Architected applied-AI systems from discovery through deployment, combining agents, RAG, APIs, SQL-backed state, cloud services and operational handover.
- Founded and built AutoClient (Mar 2024–Jul 2025): a shared account-context system for research, enrichment, qualification, CRM execution and coordinated email, LinkedIn, WhatsApp and voice follow-up.
- Built the AutoMedical product phase (Feb–Jul 2025) and published APOLO in Apr 2025, separating structured visual-evidence extraction from downstream reasoning for inspectable multimodal workflows.
- Translated EyeUnit specialist requirements into ophthalmology/OCT data flows, interfaces, longitudinal tracking and human-reviewed structured outputs within the Aug 2024–Jun 2026 collaboration.
- Built and shipped consumer AI products through MelindaAI (Jul 2023–Dec 2024), and produced long-form technical education and implementation guidance in Spanish, English and Mandarin.

ENGINEERING FOUNDATION & INTERNATIONAL COMMUNICATION

Senior Full-Stack Engineer · Damehosting

Jul 2019–Jul 2023

- Built and maintained production web platforms, backend services, APIs, database-backed features and customer-facing automation.
- Improved release reliability through code review, CI/CD, Linux/server operations, monitoring, incident troubleshooting and production support.
- Worked across frontend, backend, infrastructure and deployment boundaries while collaborating with stakeholders and mentoring developers.

Founder, Product Engineer & Technical Educator · Megawebs & Megacursos

Jul 2009–Jul 2023 · Spain / China · Hybrid

- Founded and operated a portfolio of 70+ digital projects spanning web/mobile delivery, technical SEO, analytics, content, acquisition and conversion.
- Led remote engineering and production teams, coordinated cross-functional delivery and mentored developers from implementation through support.
- Produced long-form, project-based technical education across software engineering, web production, motion graphics and design, including 195 hours across After Effects, Illustrator and Nuke series.
- Retained this founder and education portfolio concurrently with Damehosting from 2019–2023.

SUPPORTING INTERNATIONAL EXPERIENCE

Presenter & Live Host · China Media & Live Production

Jul 2015–Jul 2017 · China

- Delivered multilingual on-camera and live productions in Mandarin, English and Spanish across international teams and audiences.

Commercial Model & Actor · China Media & Commercial Production

Jul 2013–Jul 2017 · China

- Built cross-cultural communication, presentation and production discipline across international advertising and media work.

Flagship programs, education and professional authority

Six sustained programs grouped by outcome. Dates show project lifecycles within the roles on page 2, not additional full-time jobs.

SELECTED FLAGSHIP PROGRAMS

OULANG · Jan–Jun 2026 (delivered) Multilingual marketplace and local-life platform shipped across production web, iOS and Android with retrieval, product analytics, payments and operational workflows.	AutoClient · Mar 2024–Jul 2025 Agentic revenue operations connecting account research, enrichment, qualification, CRM write-back and coordinated email, LinkedIn, WhatsApp and voice follow-up; Lanzadera Sep 2025 cohort.
IWAKY / AutoPricing · Oct 2025–2026 Signed €35,000 scope for multi-marketplace pricing intelligence, WhatsApp quote analysis and ERP-oriented decision dashboards.	APOLO · Published Apr 2025 Two-stage medical-image workflow separating structured visual-evidence extraction from downstream reasoning, with inspectable outputs and human review.
RapidAct / PIME · Open source & advisory EU AI Act Article 50 diagnostics, AI-literacy delivery and operational transparency engineering for practical adoption and governance.	VUDA & MCP toolchain · Open source Open-source visual UI debugging and developer-operation tooling; VUDA reached 80 GitHub stars and 7 forks.

EDUCATION AND LANGUAGES

Li Po Chun United World College of Hong Kong · International Baccalaureate, Science & Mathematics · 2010–2012 · Rafael del Pino Foundation scholarship Shenzhen Institute of Information Technology · Computing and information-technology studies · 2016–2018	Languages Spanish native · English C2 · Mandarin Chinese C2 · Cantonese conversational Availability Open to work · available immediately · Madrid, hybrid or remote · EU work authorisation
