# Sami Halawa Ribas

## Senior GenAI Engineer · RAG & Agentic Systems

Madrid, Spain · EU work authorisation · +34 679 794 037 · sami@oulang.ai · samihalawa.com · linkedin.com/in/samihalawa · github.com/samihalawa

Hands-on AI engineer building agentic products from orchestration and retrieval through APIs, interfaces, deployment and observability. Strong in MCP, tool use, structured outputs, multi-agent workflows and production-oriented RAG architecture.

### ROLE-ALIGNED CAPABILITIES

#### Agentic AI

LangGraph-informed agent architecture, multi-agent collaboration, MCP, tool/function calling, memory and structured outputs

#### RAG & models

Retrieval workflows, document/OCR pipelines, model routing, prompt/evaluation loops, OpenAI, Anthropic, Gemini and open-source models

#### Backend

Python, FastAPI, TypeScript, Node.js, REST APIs, SQL, background jobs and integrations

#### Delivery

React, Next.js, Docker, Linux, CI/CD, deployment, logs, monitoring, analytics and human-review workflows

### CURRENT PROFESSIONAL EXPERIENCE

#### Founder & AI Product Engineer · Agents AI Ltd

Jul 2025–Present · Madrid / London

- Own product discovery, architecture, implementation, deployment, analytics, monetisation and operational handover across founder-led and B2B systems.
- Built OULANG, a multilingual marketplace and local-life platform for Chinese communities in Spain, across web, iOS and Android delivery.
- Built AutoClient and research, enrichment, CRM, email, WhatsApp and voice-agent systems; published reusable MCP and developer tooling.
- Delivered pricing-intelligence, decision-reporting, document-processing and multimodal review workflows with human review built into the process.

#### AI Instructor & Independent Technical Consultant

2022–Present · Madrid / Remote

- Teach practical AI, agents, MCP, automation, Python and product engineering through working applications, live builds and implementation-focused curricula.
- Translate business needs into systems and technical decisions for professionals and teams in Spanish, English and Mandarin.

# Systems built, operated and explained

The factual record is shared across every application edition; this page selects the systems most relevant to Senior GenAI Engineer · RAG & Agentic Systems.

## SELECTED SYSTEMS & PROOF

**AutoClient & communications agents**  
Research, enrichment, scoring, personalised outreach and conversation-state workflows across email, WhatsApp and voice.

**MCP/open-source tooling**  
VUDA visual UI diagnosis, SMTP MCP, WhatsApp tooling and Notion–Drive synchronisation.

**Document & multimodal workflows**  
Course–PDF digitisation, structured reporting and multimodal review prototypes with human oversight.

**Multilingual technical delivery**  
Product discovery, teaching and stakeholder communication in Spanish, English and Mandarin across Europe and China.

## CAREER FOUNDATION

**Senior Full-Stack Engineer · Damehosting**  
• Developed and maintained production web systems; supported delivery through code review, CI/CD, Linux/server operations and mentoring.

**2019–2023**

**Web, Mobile, Growth & Education · Megawebs / Megacursos**  
• Built more than 70 web and mobile projects, produced technical courses, taught digital design and led SEO/acquisition work.

**2009–2023**

## PUBLIC ENGINEERING EVIDENCE

**249**  
authored public GitHub repositories

**12**  
Hugging Face articles

**111**  
verified work media files

**125.83h**  
implementation archive

## OPEN SOURCE, PUBLISHING & TEACHING

- VUDA visual UI diagnosis: 80 GitHub stars / 7 forks at the verified snapshot; SMTP MCP Server: 17 stars / 15 forks.
- Published ChinoTotal, a 296-page Spanish-language Mandarin course from zero to HSK2/A2 (ISBN 9798873249237).
- Implementation-first teaching across agentic AI, automation, Python, product engineering and multilingual technical communication.

# A practical, multilingual AI profile

Current professional development strengthens an engineering record built through products, infrastructure, teaching and client delivery.
