

AI PRODUCT · ENGINEERING · OPERATIONS

Sami Halawa Ribas

Voice AI · API Integration & Automation Engineer

Madrid, Spain · EU work authorisation · +34 679 794 037 · sami@oulang.ai · samihalawa.com · linkedin.com/in/samihalawa · github.com/samihalawa

Integration-focused AI engineer connecting voice, messaging, email, CRM and web systems into reliable agent workflows. Builds the APIs, state, tools, automation and operational handover around customer-facing AI.

ROLE-ALIGNED CAPABILITIES

Voice & communications

Voice-agent state, telephony integrations, email, WhatsApp, messaging and conversation workflows

Automation

n8n, MCP, tool/function calling, research/enrichment, CRM/ERP integration and background jobs

APIs & backend

Python, FastAPI, TypeScript, Node.js, REST APIs, SQL, webhooks and structured outputs

Operations

Docker, Linux, CI/CD, deployment, logs, monitoring, analytics, retries and human handoff

CURRENT PROFESSIONAL EXPERIENCE

Founder & AI Product Engineer · Agents AI Ltd

Jul 2025–Present · Madrid / London

- Own product discovery, architecture, implementation, deployment, analytics, monetisation and operational handover across founder-led and B2B systems.
- Built OULANG, a multilingual marketplace and local-life platform for Chinese communities in Spain, across web, iOS and Android delivery.
- Built AutoClient and research, enrichment, CRM, email, WhatsApp and voice-agent systems; published reusable MCP and developer tooling.
- Delivered pricing-intelligence, decision-reporting, document-processing and multimodal review workflows with human review built into the process.

AI Instructor & Independent Technical Consultant

2022–Present · Madrid / Remote

- Teach practical AI, agents, MCP, automation, Python and product engineering through working applications, live builds and implementation-focused curricula.
- Translate business needs into systems and technical decisions for professionals and teams in Spanish, English and Mandarin.

Systems built, operated and explained

The factual record is shared across every application edition; this page selects the systems most relevant to Voice AI · API Integration & Automation Engineer.

SELECTED SYSTEMS & PROOF

AutoClient
Multichannel research, enrichment and follow-up workflows across email, WhatsApp, voice and CRM.

GOWA / SMTP MCP / Telnyx tooling
Reusable communications integrations spanning messaging history, media, email transport and voice-agent state.

Client automation
Legal intake, HR workflows, pricing intelligence and property lead-generation demonstrations connected to operational systems.

Multilingual technical delivery
Product discovery, teaching and stakeholder communication in Spanish, English and Mandarin across Europe and China.

CAREER FOUNDATION

Senior Full-Stack Engineer · Damehosting
• Developed and maintained production web systems; supported delivery through code review, CI/CD, Linux/server operations and mentoring.

2019–2023

Web, Mobile, Growth & Education · Megawebs / Megacursos
• Built more than 70 web and mobile projects, produced technical courses, taught digital design and led SEO/acquisition work.

2009–2023

PUBLIC ENGINEERING EVIDENCE

249
authored public GitHub repositories

12
Hugging Face articles

111
verified work media files

implementation archive

OPEN SOURCE, PUBLISHING & TEACHING

- VUDA visual UI diagnosis: 80 GitHub stars / 7 forks at the verified snapshot; SMTP MCP Server: 17 stars / 15 forks.
- Published ChinoTotal, a 296-page Spanish-language Mandarin course from zero to HSK2/A2 (ISBN 9798873249237).
- Implementation-first teaching across agentic AI, automation, Python, product engineering and multilingual technical communication.

A practical, multilingual AI profile

Current professional development strengthens an engineering record built through products, infrastructure, teaching and client delivery.
