

Sami Halawa Ribas

Founding AI Engineer · AI Product & Platform Lead

Madrid, Spain · EU work authorisation +34 679 794 037 sami@oulang.ai samihalawa.com LinkedIn
GitHub Hugging Face

Founder-engineer who turns ambiguous ideas into operating AI products. I work across the full system—product definition, LLM and agent workflows, data and APIs, web and mobile delivery, infrastructure, observability, growth and customer operations. My strongest work sits where technical architecture, rapid product execution, multilingual communication and commercial reality meet.

CORE CAPABILITY

Agents & LLM systems	Multi-agent orchestration, MCP, tool/function calling, RAG, structured outputs, model routing, prompt/evaluation loops, OpenAI, Anthropic, Gemini and open-source models
Product engineering	Python, FastAPI, TypeScript, Node.js, React, Next.js, Tailwind, REST APIs, SQL, background jobs, OCR/document pipelines, mobile delivery and payments
Automation & data	Research/enrichment pipelines, CRM/ERP integration, messaging, email, WhatsApp and voice workflows, web data collection, evidence/report generation and n8n
Cloud & operations	Docker, Linux, CI/CD, Cloudflare, AWS/Azure/GCP exposure, Hetzner/Coolify, deployment, logs, analytics, monitoring and cost control
Leadership & teaching	Zero-to-one architecture, product strategy, customer discovery, technical direction, client delivery, mentoring, course design and executive communication in ES/EN/ZH

PROFESSIONAL EXPERIENCE

- Founder & AI Product Engineer · Agents AI Ltd**

Jul 2025–Present

Madrid / London · Company no. 16570822 · AI products, platforms and specialist delivery

 - Own product discovery, architecture, implementation, deployment, analytics, monetisation and operational handover across founder-led and B2B systems.
 - Built **OULANG (欧浪AI)**, a multilingual marketplace and local-life platform for Chinese communities in Spain, across web, iOS and Android delivery.
 - Extended the marketplace architecture into **Huatong** for Chinese communities across Europe and **OUPIN** for AI-assisted commerce/discovery.
 - Built **AutoClient** and related research, enrichment, CRM, email, WhatsApp and voice-agent systems; published reusable MCP and developer tooling, including a property-lead generation demonstration for Tekçe.
 - Delivered pricing-intelligence/evidence-report workflows and prototyped multimodal medical-image review and reporting tools, keeping evaluation and human review explicit.
- AI Instructor & Independent Technical Consultant**

2022–Present

 - Teach practical AI, agents, MCP, automation, Python and product engineering through working applications, live builds and implementation-focused curricula.
 - Translate business needs into systems for professionals and teams; the current archive contains **111 valid lesson, meeting and project media files (125.83 hours)**.
- Senior Full-Stack Engineer · Damehosting**

2019–2023

 - Developed and maintained production web systems; supported delivery through code review, CI/CD practices, Linux/server operations and developer mentoring.
- Web, Mobile, Growth & Education · Megawebs / Megacursos**

2009–2023

 - Built web/mobile products, produced technical courses, taught digital design and led SEO/acquisition work across a self-reported 70+ project history—the distribution and communication foundation now applied to AI products.

A selection from 84 public work records spanning products, client systems, prototypes, infrastructure, research and education. Explore the searchable archive at samihalawa.com/projects.

LIVE PRODUCTS & CONTINUING PLATFORMS

2026 · WEB, IOS & ANDROID

OULANG (欧浪AI)

Chinese-diaspora marketplace and local-life product for Spain: housing, jobs, resale, services, community, payments and analytics. oulang.ai

2026 · LIVE WEB + TESTFLIGHT

AutoDate

Dating product with a live web surface and iOS 1.0.14 (39) ready to test on 14 July 2026—not presented as an App Store release. autodate.ai

2026 · LIVE SERVICE PRODUCT

PIME.ai · EU AI Act pack

Multilingual fixed-price applicability/risk analysis, AI-literacy training and roadmap product with dedicated delivery and campaign infrastructure. pime.ai

2026 · NATIVE SWIFTUI · PRE-RELEASE

Tasky

Google Tasks client for macOS, iOS and iPadOS with quick capture, focus, widgets, extensions and sync. Upload/review work exists; release is not claimed.

2026 · LIVE EUROPEAN PLATFORM

Huatong

Chinese-first employment, housing, classifieds and local-services platform spanning European markets. huatong.eu

2024–PRESENT · AGENTIC GROWTH

AutoClient

Research, enrichment, lead scoring, personalised outreach, conversation tracking and CRM automation across email, WhatsApp and voice, including a property-lead generation demonstration for Tekçe.

2025–2026 · LIVE RESEARCH SURFACE

AutoMedical

Medical-learning and multimodal-workflow product packaging; public claims exclude clinical efficacy, regulation, adoption and patient outcomes. automedical.ai

2026 · MULTILINGUAL COMMERCE

OUPIN

AI-assisted consumer/property discovery product with shared identity and infrastructure work; current production domain and user metrics remain unconfirmed.

CLIENT WORK & COLLABORATIONS

2025 · SIGNED €35K SCOPE

IWAKY / AutoPricing

B2C/B2B pricing, marketplace intelligence, product matching, WhatsApp quote analysis, ERP commerce and decision dashboards.

2025–2026 · TECHNICAL LEAD

Umbramed / Valerio

Ionic/Capacitor clinical-study tools with roadmap, Netlify, Stripe and EIC application artifacts. Applications are not awards; deployment is not clinical adoption. umbramed.es

2025 · DEMONSTRATED PROTOTYPE

Scope / EyeUnit / Fernando Ly

Account-list merging, cross-sell discovery and clinical-market scoring connected to OCT/medical-AI research; the shared host is now gated.

2025 · HR AUTOMATION PROPOSAL

San Martín

Birthday automation, timesheets and work-part rules, talent search and employee-portal scoping.

2026 · BUSINESS-DEVELOPMENT DEMO

Tekçe / OULANG-AutoClient

Qualified Chinese property-buyer lead generation, transparent CRM handling and personalised AI outreach demonstrated for a potential partnership.

2025–2026 · CLIENT/PRODUCT WORK

InfoHuaxin

Connected product and client work spanning a live public surface, data systems and operational tooling. infohuaxin.es

2025–2026 · DEMO + PROPOSAL/PILOT

INTLAW / Ignacio

Legal-AI demonstration spanning prospecting, chatbot/WhatsApp/phone intake and multi-agent case-file analysis. No signed-contract claim.

2025 · PROPOSAL + REPOSITORY

SORT / SortBot

Workflow proposal for converting course PDFs into online courses, adding a chatbot and publishing through SSH. Acceptance/deployment remain unconfirmed.

2026 · COMMERCIAL SCOPING

EA Housing / Radio Inter

Modular separate-company proposals plus a group option built from a recorded call; no contract, payment or delivery is claimed.

Public code is separated from upstream adaptations, and experimental or medical work is never promoted as clinical deployment.

OPEN SOURCE & OPERATING INFRASTRUCTURE

2025-PRESENT · 80★ / 7 FORKS

VUDA — Visual UI Debug Agent MCP

Visual evidence capture, annotation and reasoning for diagnosing real UI problems. [GitHub](#)

2025 · 17★ / 15 FORKS

SMTP MCP Server

Email transport and mailbox integration for agent workflows. [GitHub](#)

2025-2026 · GO + MCP

GOWA / WhatsApp automation

Messaging, history and media APIs for operational agents and multichannel workflows.

2026 · 3★

Notion-Drive Sync

Open-source synchronization between Notion workspaces and Google Drive. [GitHub](#)

2026 · VOICE/COMMUNICATIONS

Telnyx agentic tooling

Telephony, voice-agent state and communications integrations packaged into reusable tools.

2026 · AGENT MEMORY

Codex Chronicle / Screenpipe

Cross-session reconstruction, persistent visual memory and analysis for multi-agent work on macOS.

2024 · 13★ / 1 FORK

macOS Optimizer

Open-source macOS utility for storage analysis, cache cleanup and system maintenance.

2026 · DATA INFRASTRUCTURE

Crawlab / Apify actor fleet

Scraping actors, central storage and data consumers across OULANG, Huatong and OUPIN.

APPLIED RESEARCH, PROTOTYPES & EDUCATION

2025 · PUBLIC HF MODEL

APOLO multimodal medical exploration

Image-text artifact based on DeepSeek-VL2-tiny; research/prototyping only, with no clinical-validation claim. Model

2025 · PRODUCT CONCEPT

AutoRad

Radiology product concept and workflow planning for image review, reporting and clinical collaboration.

2024-2026 · PROTOTYPES

AutoIOL / ophthalmology workflows

Image review, OCT work, longitudinal tracking and structured reports with human review; no adoption or clinical-result claim.

2026 · PRODUCT DISCOVERY

Recipe intelligence

Chef-note/photo ingestion, web research, technique preservation, multilingual publishing and optional recipe-video workflows.

2026 · CODE-LEVEL PROTOTYPE

SONMADE content factory

React/TypeScript, FFmpeg and Sharp workflow for scene analysis and video-highlight extraction using motion, colour, edge/text and fullscreen scoring.

2024 · PRODUCT EXPLORATION

AutoCrypto

Crypto automation/product artifact family; no trading-return, deployed-capital, user or regulatory claim.

2025 · 15-HOUR SYLLABUS

AI-agent architecture course

Foundations, tools, memory, multi-agent systems, RAG, deployment and observability; delivery dates and learner outcomes remain unclaimed.

EDUCATION & CREATIVE TECHNOLOGY

ChinoTotal · soundscapes · poetry media

Mandarin product/book, onomatopoeia deck, printable tutoring assets, 72-poem collection and generated poetry-audio artifacts. [chinototal.com](#)

CHRONOLOGICAL PROJECT INDEX

2023	Public AI experimentation: RealSintra, Mi ChatGPT React Español, OpenAI/GPT file experiments and DameSender continuity.
2024	Automation, education and medical exploration: Aprende IA, MenuEditorElectron, AI Absolut, crawler/email tools, macOS Optimizer, CloudflaredMe, AutoCrypto, audio/transcription tools, KittyTasks/FocusOnTask, AutoClient, Pollinations/storage experiments, AutoVideo, MedSAM, AutoTraining, AutoIOL, SpeakingAI, EyeUnit/Fernando Ly, Rafael Botella, Daniel Parisi, Light Funnels, Hugging Face writing and Colab research.
2025 · Q1	Bots and MCP: SORT/SortBot, AutoHSK, publishing systems, SMTP MCP, shell/browser/diff tools and continuing ophthalmology workflows.
2025 · Q2	Open source and client intelligence: APOLO, VUDA, AutoTutorial/MentorIA/PerfectPrompter, Wordlist Visual, Scope, Fernando Ly medical-AI work, AutoClient expansion, the wider MCP wave, Agents AI Ltd and Lanzadera ecosystem participation.
2025 · H2	Commercial systems and proposals: AutoMedical packaging, operating utilities, the AutoRad workflow concept, site work, WhatsApp MCP, IWAKY/AutoPricing, INTLAW, San Martín, Umbramed, AutoDate/AutoTinder design, the prototype wave, poetry site, Lemon AI customization and the 15-hour agent course.
2026 · H1	Platform ecosystem: OULANG, GOWA, Notion–Drive Sync, Huatong, InfoHuaxin, OUPIN, actor infrastructure, Chronicle/Screenpipe, Telnyn tools, Desktop Commander utilities, MadridResorts, VibraCode, AutoMedical, Tasky, AI tutoring/ITE/TusClases, OULANG World Cup module and SONMADE.
2026 · Q3	Current work: AutoDate TestFlight, recipe intelligence, Tekçe/OULANG–AutoClient property lead generation, OULANG native parity, EA Housing/Radio Inter proposals, Chinese soundscapes, tutoring and poetry audio, PIME AI Act pack and additional local products.

OPEN SOURCE, WRITING & TEACHING

GitHub

700 public repositories as of 15 July 2026: 249 non-forks and 451 forks. Original work spans agents, MCP, automation, browser/UI debugging, messaging, voice, data collection and product delivery.

Recorded implementation archive

111 valid media files / 125.83 hours across lessons, product meetings and technical work: AI workflows, frontend/backend architecture, n8n, databases, Gemini, medical workflow apps and automation.

Hugging Face

12 public articles, 17 Spaces, 6 collections and 1 model. Writing and experiments span browser automation, prompting, agent systems and multimodal AI.

YouTube & course production

373 public videos spanning AI, After Effects, product work and a longer history of technical, design and language education.

EDUCATION, LANGUAGES & CREDENTIALS

Li Po Chun United World College of Hong Kong

International Baccalaureate, Science & Mathematics · 2010–2012 · Full UWC scholarship.

Languages

Spanish: native · English: C2 / full professional · Mandarin Chinese: C2 / full professional · Cantonese: conversational.

Publication

ChinoTotal: Aprende Chino Mandarín desde 0 · ISBN 9798873249237.

Shenzhen Institute of Information Technology

Computing and information-technology studies · 2016–2018 · Shenzhen, China.

Selected credentials

Microsoft Certified: Azure AI Fundamentals (AI-900) · Adobe Certified Expert — After Effects.

Working style

Founder-level ownership, fast prototyping, direct customer discovery, multilingual delivery and a bias toward systems that can be operated—not slideware.

RELEVANT ROLE PROFILE

- Founding AI Engineer
- AI Product Engineer
- AI Platform Lead
- Head of AI
- Staff AI Engineer
- Technical Product Lead

ABOUT THIS EDITION

This master CV combines a concise professional profile with selected products, collaborations, open-source work, research and education. A photo-free ATS edition is maintained separately for application systems, while the searchable archive at samihalawa.com/projects covers all 84 public work records.
