**Founder-engineer who turns ambiguous ideas into operating AI products.** I work across the full system—product definition, LLM and agent workflows, data and APIs, web and mobile delivery, infrastructure, observability, growth and customer operations. My strongest work sits where technical architecture, rapid product execution, multilingual communication and commercial reality meet.

### PROFESSIONAL EXPERIENCE

- Founder & AI Product Engineer · Agents AI Ltd**

Jul 2025–Present

Madrid / London · Company no. 16570822 · AI products, platforms and specialist delivery

  - Own product discovery, architecture, implementation, deployment, analytics, monetisation and operational handover across founder-led and B2B systems.
  - Built **OULANG (欧浪AI)**, a multilingual marketplace and local-life platform for Chinese communities in Spain, across web, iOS and Android delivery.
  - Extended the marketplace architecture into **Huatong** for Chinese communities across Europe and **OUPIN** for AI-assisted commerce/discovery.
  - Built **AutoClient** and related research, enrichment, CRM, email, WhatsApp and voice-agent systems; published reusable MCP and developer tooling, including a property-lead generation demonstration for Tekçe.
  - Delivered pricing-intelligence and decision-reporting workflows and prototyped multimodal medical-image review tools with evaluation and human review built into the process.
- AI Instructor & Independent Technical Consultant**

2022–Present

  - Teach practical AI, agents, MCP, automation, Python and product engineering through working applications, live builds and implementation-focused curricula.
  - Translate business needs into systems for professionals and teams; the current archive contains **111 valid lesson, meeting and project media files (125.83 hours)**.
- Senior Full-Stack Engineer · Damehosting**

2019–2023

  - Developed and maintained production web systems; supported delivery through code review, CI/CD practices, Linux/server operations and developer mentoring.
- Web, Mobile, Growth & Education · Megawebs / Megacursos**

2009–2023

  - Built more than 70 web and mobile projects, produced technical courses, taught digital design and led SEO/acquisition work—the distribution and communication foundation now applied to AI products.
