

AI SYSTEMS · PRODUCT ENGINEERING · PRODUCTION DELIVERY

Sami Halawa Ribas

Senior GenAI Engineer · RAG, Agents, Voice & Automation

Madrid, Spain · EU work authorisation · +34 679 794 037 · sami@oulang.ai · samihalawa.com · linkedin.com/in/samihalawa · github.com/samihalawa

Hands-on AI engineer building agentic products from retrieval and orchestration through APIs, interfaces, voice and messaging integrations, deployment, evaluation and observability. I take systems from architecture and implementation through deployment, evaluation, analytics and operational handover.

RECORDED INSTRUCTION

CORE TECHNICAL EXPERTISE

Agents & RAG

LangChain, LangGraph, MCP, multi-agent workflows, memory, retrieval and structured outputs

Models & evaluation

OpenAI, Anthropic, Gemini, open models, prompt design, tool schemas and evaluation loops

Voice & automation

Telnyx, voice APIs, CRM context, email, WhatsApp, webhooks, n8n and post-call workflows

Production delivery

Python, FastAPI, TypeScript, SQL, Docker, CI/CD, logs and human-review checkpoints

PRODUCTION ARCHITECTURE

context + retrieval → explicit agent state → tool / function calls → structured outputs → evaluation checkpoints → observability → human review → operational action

ENGINEERING STACK

Languages & APIs: Python, TypeScript, SQL, FastAPI, Node.js, REST, webhooks · **Agent systems:** LangGraph, LangChain, MCP, RAG, OpenAI, Anthropic, Gemini · **Product:** React, Next.js, Ionic, Capacitor, Expo, SwiftUI · **Delivery:** Docker, Linux, CI/CD, Coolify, Cloudflare, PostHog and cloud platforms.

AI systems, engineering and communication

All 14 roles retained, with emphasis on production AI, product engineering, consulting and technical delivery.

EXPERIENCE

Founding AI Engineer · Agents AI Ltd

Jul 2025–Present · Madrid, Spain

- Built and operated OULANG across web, iOS and Android, reaching 17,262 users, 38,857 listings and 89,913 contact reveals by 3 July 2026.
- Engineered production agent workflows with explicit state, tool and function calling, structured outputs, evaluation checkpoints, observability and human review across Python, TypeScript, APIs and SQL.

Agentic AI Systems Engineer · AutoClient AI

Mar 2024–Present · Madrid, Spain

- Founded and architected an agentic revenue-operations system selected by Lanzadera in 2025, spanning research, enrichment, qualification, CRM execution and next-action planning.
- Orchestrated email, LinkedIn, WhatsApp and voice around shared account context, traceable execution, structured outputs and review points before external action.

Medical AI Product Engineer · AutoMedical

Feb 2025–Present · Madrid, Spain

- Built multimodal research and learning workflows for image review, structured reporting and professional education with inspectable outputs and human oversight.
- Architected APOLO as a two-stage vision-language and reasoning workflow and prototyped AutoIOL and MedSAM-based ophthalmology workflows.

Independent AI Systems Consultant

Jul 2022–Present · Madrid / Remote

- Designed production architectures for agents, RAG, MCP, APIs, SQL and cloud environments from requirements through deployment and operational handover.
- Delivered 111 recorded lessons, workshops and implementation sessions totalling 125.83 hours in Spanish, English and Mandarin.

AI Product & Medical Workflow Consultant · Fernando Ly / EyeUnit

Aug 2024–Aug 2026 · Madrid / Remote

- Designed ophthalmology and OCT prototypes for account intelligence, cross-sell discovery, multimodal review, longitudinal tracking and structured reporting.
- Translated specialist requirements into product concepts, data flows, interfaces and reviewable human-in-the-loop outputs.

Medical AI Product Engineer & Technical Mentor · Umbramed / Valerio Trigos

Jul 2025–Jun 2026 · Madrid / Remote

- Led Ionic, Capacitor and PWA architecture, mobile installability, delivery recovery and exam-data workflows from PDF ingestion to reusable structured data.
- Supported integrations, analytics, payment preparation, app packaging, accelerator material and AI-assisted product implementation.

AI Product & Prototype Lead · MelindaAI

Jul 2023–Dec 2024

- Built and tested consumer AI concepts including MelindaAI, KittyAI, Sharedetect and ZebraMenu, covering user journeys, interfaces and AI-assisted interactions.

Senior Full-Stack Engineer · Damehosting

Jul 2019–Jul 2023

- Built and maintained production web platforms, backend services, APIs, database features and automation while supporting CI/CD, Linux operations, monitoring and incident recovery.

Technical SEO & Web Platform Engineer · Megawebs

Jul 2010–Jul 2023

- Led technical SEO, web architecture, analytics, content and acquisition across a portfolio of more than 70 digital projects.

Full-Stack Product Engineer & Technical Educator · Megacursos.com

Jul 2009–Jul 2023

- Delivered web and mobile products from concept through maintenance while producing reusable technical curricula, practical projects and customer-facing learning systems.

Technical Course Instructor & Producer

Aug 2013–Aug 2019 · Madrid

- Designed project-based courses and demonstrations in After Effects, Cinema 4D, Photoshop and digital production for classroom, hybrid and recorded delivery.

Digital Design Instructor

Jul 2009–Jul 2016 · Madrid

- Taught motion graphics, design and web-production workflows and created reusable lesson plans, demonstrations and course assets.

Presenter & Live Host · China Media & Live Production

Jul 2015–Jul 2017 · China

- Delivered multilingual on-camera and live productions in Mandarin, English and Spanish, adapting rapidly across audiences, formats and production teams.

Commercial Model & Actor · China Media & Commercial Production

Jul 2013–Jul 2017 · China

- Worked across international advertising and media productions, building the visual communication and audience awareness later applied to teaching, demos and product storytelling.

Systems, education and professional authority

Selected evidence supporting senior AI engineering, technical-founder and AI systems architecture roles.

SELECTED TECHNICAL SYSTEMS

OULANG Multilingual marketplace and local-life platform shipped across production web, iOS and Android with product analytics, payments and operational workflows.	AutoClient Agentic revenue operations connecting account research, enrichment, qualification, CRM write-back and coordinated email, LinkedIn, WhatsApp and voice follow-up.
VUDA & MCP toolchain Open-source visual UI debugging, SMTP, WhatsApp, browser and developer-operation tools; VUDA reached 80 GitHub stars and 7 forks.	APOLO & multimodal AI Two-stage medical-image workflow separating structured visual evidence extraction from downstream reasoning, with explicit evaluation and human review.
RapidAct Practical EU AI Act Article 50 diagnostics, implementation guidance and operational transparency engineering.	Technical publishing Applied AI Systems writing on production agents, automation, multimodal AI, UI debugging and EU AI Act transparency.

EDUCATION AND LANGUAGES

Li Po Chun United World College of Hong Kong · International Baccalaureate, Science & Mathematics · 2010–2012 · Rafael del Pino Foundation scholarship Shenzhen Institute of Information Technology · Computing and information-technology studies · 2016–2018	Languages Spanish native · English C2 · Mandarin Chinese C2 · Cantonese conversational Location Madrid · remote-ready · EU work authorisation

SELECTED PROFESSIONAL CREDENTIALS

Microsoft Certified: Azure AI Fundamentals (AI-900)	Databricks Mosaic AI · RRXO8HSACR29
IBM Generative AI Engineering Professional Certificate · H21CWM4OU7XQ	Agentic AI Engineering · GZ2Q50QNLE6N
IBM Machine Learning Professional Certificate · TRO88CF6Y826	Multi-Agent Systems with LangGraph · C8KPTX6U5B6C
Microsoft Generative AI Engineering · 4F55T94ZR1DH	Developing MCP-Powered Agentic AI Systems · PEGPNFWLRNHG
Microsoft AI & ML Engineering · G39IMP9491N8	AI Automation Engineer with n8n · YUNCHF6IXQJQ
Google AI Professional Certificate · RFQT2RK02F2E	AI Governance & ISO 42001 Readiness · BSI · UXUS7TQ36GF4
AI in Healthcare · Stanford University · 7XCTV3Q16K04	AI Foundations for Business Professionals · Oxford Saïd · LWTECCK71WBO

PUBLISHING AND RECOMMENDATIONS

Applied AI Systems Technical writing on production agents, automation, multimodal AI, UI debugging and EU AI Act transparency. Published author of the 296-page ChinoTotal Mandarin course.	Professional recommendations Public recommendations highlight technical execution, analytical thinking and AutoClient MVP-validation results including 200+ qualified contacts in two weeks and a reported 30% conversion improvement.
