PROFESSIONAL SUMMARY

Founding AI engineer and systems architect building production agentic AI: multi-agent workflows, RAG and MCP systems across web, iOS and Android. Ship with explicit state, tool-calling schemas, structured outputs, evaluation checkpoints, observability and human review. OULANG at 17,262 users, 38,857 listings and 89,913 contact reveals. AutoClient selected by Lanzadera in 2025 with a public recommendation citing 200+ qualified contacts in two weeks and 30% sales conversion lift. APOLO medical multimodal model published on Hugging Face. VUDA at 80 GitHub stars. Open-source MCP servers on npm: visual-ui-debug-agent-mcp (900+ installs) and email-smtp-imap-mcp (1,700+ installs). 116 verified credentials including IBM, Microsoft, Google, Stanford and BSI. 170,000+ YouTube subscribers. Trilingual: English, Spanish and Mandarin (native/bilingual).

EXPERIENCE

Founding AI Engineer & Systems Architect

Agents AI Ltd · Full-time | Jul 2025 – Present | Madrid, Spain · Hybrid

- Built and operated OULANG across web, iOS and Android (17,262 registered users, 38,857 listings, 89,913 contact reveals); migrated stack off Google Cloud/Vertex to Hetzner + Coolify for major cost reduction.
- Delivered agentic and multi-agent systems with durable state, tool calling, structured outputs, evaluation and human review.
- Delivered IWAKY/AutoPricing scope: multi-marketplace pricing intelligence, WhatsApp quote analysis and ERP dashboards.
- Published open-source MCP servers on npm: visual-ui-debug-agent-mcp and email-smtp-imap-mcp.
- Shipped end-user apps to Apple App Store, Google Play, Shopify App Store and Wix App Market.

Stack: LangChain, LangGraph, CrewAI, AutoGen, Mastra, Google ADK, MCP, n8n, RAG/GraphRAG, Claude, GPT, Gemini, DeepSeek, Qwen, Llama, Hugging Face, Ollama, Docker, Coolify, PostHog, Vertex AI, Cloud Run, GKE, SageMaker, Azure OpenAI, Python, FastAPI, TypeScript, React, Next.js, React Native, Expo, Telnyx, Puppeteer, Playwright, Midscene.

ML / LLMops Engineer

Agents AI Ltd. · Full-time | Jan 2024 – Present | Madrid, Spain · Hybrid

- Built semantic search for 39K+ multilingual (Chinese/Spanish) listing corpus: near-duplicate collapse, language ID, spam/quality heuristics, embedding-based retrieval with Vertex AI Search and Gemini routing.
- Migrated ML infrastructure AWS to GCP/Vertex to self-hosted Hetzner/Coolify/Docker, reducing spend from ~18K EUR/mo (peak ~40-50K EUR/mo) to ~200 EUR/mo.
- Designed FastAPI inference services with AsyncIO fan-out for embedding/LLM jobs, SSE streaming, prompt/embedding caching, and model routing across Gemini, OpenAI, DeepSeek, and open-source models.
- Published APOLO medical multimodal research model on Hugging Face (DeepSeek-VL2tiny for OCT/fundus image-to-text) as part of a paid clinical collaboration (32K+ EUR).
- Built feature-driven pricing intelligence: marketplace data collection, feature extraction, price-band scoring with human review, ERP write-back (35K EUR signed scope).
- Developed multi-agent worker pipelines with structured outputs (Pydantic), MCP tools, LLM-as-judge evaluation, production tracing, CRM write-back. Selected for Lanzadera accelerator (Sep 2025).
- Evaluation stack: golden query sets, LLM-as-judge rubrics, PostHog/BigQuery telemetry, error slicing by language/source, zero-result rate monitoring.

Stack: Python, PyTorch, HuggingFace, FastAPI, Pydantic, LangChain/LangGraph, Vertex AI, GKE, AlloyDB, BigQuery, Docker, vLLM/Ollama, CUDA, PostHog, Apify/Crawlab.

AI Product & Medical Workflow Architect

Fernando Ly / EyeUnit · Freelance | Aug 2024 – Aug 2026 | Madrid, Spain · Remote

- Transformed specialist requirements into production-ready product designs, data flows, interfaces and reviewable outputs for medical AI and ophthalmology workflows.
- Designed account-list merging, cross-sell discovery and clinical-market scoring workflows.
- Built multimodal image review, longitudinal tracking and structured reporting with human review.

Technical Lead & AI Engineering Mentor

Umbramed / Valerio Trigos · Freelance | Jul 2025 – Jun 2026 | Madrid, Spain · Remote

- Led Ionic, Capacitor and PWA architecture, mobile installability, Netlify delivery and recovery.
- Designed exam-data workflows from PDF-to-JSON/Airtable ingestion through bulk upload and medical-question databases.
- Developed interactive demos and technical application materials for the EIC / EC Accelerator process.
- Mentored AI-assisted development, prompt systems, interface design and iterative product implementation.

Medical AI Product & Systems Architect

AutoMedical · Full-time | Feb 2025 – Jul 2025 | Madrid, Spain · Remote

- Architected APOLO as two bounded stages: structured visual-evidence extraction first, downstream classification and explicit reasoning second.
- Fine-tuned DeepSeek vision-language model for glaucoma/OCT image-to-text with MedSAM segmentation and radiography report generation.
- Served models via FastAPI and Hugging Face inference, GDPR-first and fully on-premise for clinical data security.
- Collaborated with London ophthalmologist and clinicians (incl. Hospital 12 de Octubre) on evaluation and human review.

Stack: Python, FastAPI, DeepSeek/Qwen VLMs, MedSAM, PyTorch, Hugging Face, Ollama.

Founder & Agentic AI Systems Architect

AutoClient AI · Full-time | Mar 2024 – Jul 2025 | Madrid, Spain · Remote

- Founded AutoClient to replace disconnected sales automations with one traceable account-context system; selected by Lanzadera in 2025.
- Architected shared context layer spanning account research, enrichment, qualification, CRM execution and next-action planning.
- Coordinated email, LinkedIn, WhatsApp and voice with review before external action. Public recommendation cites 200+ qualified contacts in two weeks and 30% sales conversion improvement.

Stack: Python, FastAPI, LangChain, LangGraph, MCP, BrowserBase, Telnyx, WhatsApp/GOWA, MySQL, PostHog.

AI Systems Architect & Independent Technical Advisor

Independent · Full-time | Jul 2022 – Jul 2025 | Madrid, Spain · Remote

- Designed and delivered applied-AI systems from discovery through deployment, evaluation and operational handover.
- Architected agentic, RAG, MCP, API, SQL and cloud workflows with explicit state, structured outputs and review boundaries.
- Built INTLAW legal-document RAG (omnichannel intake, case-file analysis, GraphRAG) and insurance risk-prediction models.
- Published Article 50 engineering guidance and EU AI Act transparency materials through RapidAct and PIME.ai.
- Published technical guides on autonomous coding agents, multimodal medical AI, visual UI debugging and AI transparency.

Stack: Python, FastAPI, RAG/GraphRAG, LangChain/LangGraph, MCP, Docker, CI/CD, PostHog, Vertex AI, Cloud Run, AWS, Azure.

AI Product Lead

MelindaAI | Jul 2023 – Dec 2024

- Built and launched consumer AI products including MelindaAI, KittyAI, Sharedetect and ZebraMenu.

- Designed and shipped user journeys, interfaces and AI-assisted interactions across consumer and social use cases.

Senior Full-Stack Engineer

Damehosting | Jul 2019 – Jul 2023

- Developed and maintained production web platforms, backend services and operational integrations.
- Built APIs, database-backed features, automation workflows and customer-facing web systems.
- Improved delivery through code review, CI/CD practices, Linux/server operations, monitoring and incident troubleshooting.

Technical SEO & Web Platform Engineer

Megawebs | Jul 2016 – Jul 2023

- Led technical SEO, web architecture, content and acquisition across a portfolio of 70+ digital projects.
- Connected SEO strategy with web development, analytics, content production and conversion-focused user journeys.

Full-Stack Product Engineer & Technical Educator

Megacursos.com | Jul 2016 – Jul 2023

- Delivered web, mobile and digital products from concept through launch across 70+ projects.
- Produced long-form technical course series: 72 lessons / 90h After Effects, 51 lessons / 70h Illustrator, 42 lessons / 35h Nuke.
- Led remote engineering teams and mentored developers; delivered enterprise AI upskilling across React, Next.js, Node.js, Python.

Technical Course Instructor & Producer

Megacursos.com | Aug 2013 – Aug 2019 | Madrid

Produced and taught long-form, project-based technical courses across video, compositing and design.

Digital Design Instructor

Megacursos.com | Jul 2009 – Jul 2016 | Madrid, Spain

Taught practical digital-design and production workflows through project-based instruction.

Presenter & Live Host

China Media & Live Production | Jul 2015 – Jul 2017 | China

Delivered multilingual on-camera presentations and live content in China.

Commercial Model & Actor

China Media & Commercial Production | Jul 2013 – Jul 2017 | China

Worked in commercial modelling and acting assignments in China.

EDUCATION

The University of Hong Kong

Bachelor of Engineering (BEng), Computer Science and Software Engineering | Sep 2012 – Jun 2016 | First Class Honours

Specialization in software systems, algorithms, and distributed computing. Coursework in data structures, operating systems, computer networks, database systems, software architecture, and machine learning fundamentals. Final-year project on distributed web crawling and NLP for multilingual content classification.

Universidad Politecnica de Madrid

Postgraduate Course, Artificial Intelligence and Big Data | Sep 2021 – Jun 2022

Large-scale data processing, cloud-native architectures, applied AI, Apache Spark, deep learning, model deployment. Capstone: multilingual NLP system for automated content classification.

Stanford University

Specialization Certificate, Machine Learning | Mar 2022 – Sep 2022

Three-course specialization by Andrew Ng: supervised learning, neural networks, recommender systems, reinforcement learning, clustering, anomaly detection, dimensionality reduction.

DeepLearning.AI

Specialization Certificate, Deep Learning | Jan 2020 – Jun 2020

Five-course specialization by Andrew Ng: neural networks, CNNs, sequence models, attention mechanisms. Projects in image recognition, NLP and neural machine translation with TensorFlow/Keras.

Google Cloud

Professional Certificate, Machine Learning Engineering | Jun 2023 – Dec 2023

ML model development and deployment on GCP: feature engineering, Vertex AI, MLOps pipelines, model monitoring, BigQuery ML, TensorFlow, Kubeflow.

Google

Google AI Professional Certificate | Aug 2026

Seven-course certificate: AI Fundamentals, brainstorming/planning, research/insights, writing/communication, content creation, data analysis, app building.

Stanford University

AI in Healthcare Specialization | Aug 2026

Five-course programme: clinical data, machine learning for healthcare, AI evaluation and healthcare capstone.

Microsoft

Generative AI Engineering Professional Certificate | Aug 2026

Azure generative AI, foundation models, large language models, multimodal systems, responsible MLOps.

Microsoft

AI & ML Engineering Professional Certificate | Aug 2026

AI/ML foundations, algorithms, intelligent troubleshooting agents, Azure, advanced capstone.

IBM

Machine Learning Professional Certificate | Aug 2026

EDA, supervised/unsupervised learning, deep learning, reinforcement learning, capstone.

IBM

Generative AI Engineering Professional Certificate | Aug 2026

Python AI engineering, generative models, transformers, fine-tuning, RAG, LangChain, production applications.

Google

Data Analytics Professional Certificate | Aug 2026

Data preparation, analysis, SQL, R, Tableau, visualization and applied case study.

Saïd Business School, University of Oxford

AI Foundations for Business Professionals Specialization | Jul 2026

AI strategy, organisational adoption, business value, governance and responsible transformation.

British Standards Institution (BSI)

AI Governance & ISO 42001 Readiness for GRC, Audit & Legal Specialization | Jul 2026

AI governance, impact assessment, ISO/IEC 42001, ISO 23894, EU AI Act and trustworthy AI.

RECOMMENDATIONS

"I was directly responsible for Sami's work, and he left a deep impression on me. He is an outstanding Full-Stack Product Engineer with solid technical abilities, especially skilled in AI, product development, and quickly turning complex ideas into practical features. Sami has strong learning ability, is proactive, responsible, and excellent at problem-solving."

- Haoyung Zu, Rental Manager | Aug 2026

"Gran capacidad tecnica, mentalidad analitica y una ejecucion impecable en desarrollo y datos."

- Hugo Morales, Investment Associate, Lukkit Ventures | Jul 2026

"La plataforma genero mas de 200 contactos cualificados en solo dos semanas para uno de estos empresarios, lo que contribuyo a una mejora del 30% en su tasa de conversion de ventas. El liderazgo tecnico y la vision de producto de Sami fueron fundamentales en estos logros."

- Haoyung Zu, Rental Manager (re: AutoClient.ai) | Jul 2025
